

ENDORSEMENT

Over 560 hours with Guy, my English skills transformed profoundly—from being an ESL student to scoring the highest in my MYP IB English class. His guidance and informative lessons are the foundation of my grammar and writing, which also enabled me to write a 54,000-word book on Big Pharma, focusing on behavioural economics and legal/business ethics. Beyond academics, Guy was beneficial to my public speaking and debate journey. One standout experience was our three-month preparation for the World Junior Public Speaking Championships. Together, we selected a topic on “winning vs. succeeding,” crafted the speech, and refined it through countless hours of practice. With his mentorship, I achieved 2nd place—a feat I once thought was impossible. With Guy, I succeeded.
